

# Dipole Antenna Build

When: 1:00pm - 3:30pm on Saturday, April 14th

Where: RJM Computers, [4524 W Overland Rd, Boise](#)

What: Learn to build and tune a classic wire dipole. Parts cost \$35. (Cash or check payable to HPBARC.)

Do: Email [hpbarc@hp.com](mailto:hpbarc@hp.com) re: Dipole Antenna Build

## Details:

- Classic Wire Antenna Build
- Learn how to build and tune a classic wire dipole. You will have the dipole to use at your shack (or attic!)
- VOI will have a dipole building party Saturday April 14 in the parking lot of RJM Computers, [4524 W Overland Rd, Boise](#).
- 1 pm to 3:30 pm (so we are done by 4pm)
- We have 20 of the 20 meter dipole kits and 10 of the 10 meter dipole kits.
- First come first served. One kit per person. At the end of the build you can buy any remaining kits.
- The HP Club has assembled the kits at a cost of \$35 each. Cash or make checks payable to HPBARC.
- VOI will have people there to guide you through assembly and assist you in giving the antenna an initial tune (antenna tuning needs to be checked and adjusted when in its final location)
- Minimum class size will be 5 participants. Please email [hpbarc@hp.com](mailto:hpbarc@hp.com) to let us know you're coming!
